[Waukesha Engine Specifications](#)

2. Engine models designated with the prefix numbers "4" and "6" For a short period of time in the 1930's, Waukesha produced "F-Head" engines that had the exhaust valve in the engine block and intake valve in the cylinder head. These models had a prefix "4" for 4-cylinder engines, and a pre-fix "6" for 6-cylinder engines. These numerals designated the number of cylinders in the engine and were followed by a dash number that designated the approximate maximum HP of the engine. Examples of ...

[Waukesha Engine Parts | Request a Part Quote Online](#)

GE Distributed Power will close its engine manufacturing facility in Waukesha, Wisconsin, USA by the end of April 2019. The move will eliminate 236 jobs—31 salaried and 205 hourly. The move was not unexpected—GE announced in September 2015 that it would move the work done at the factory because of the failure of Congress to renew the U.S. Export-Import Bank in a timely manner.
